## ABOUT THE PROJECT

The main goal of the project "Young Digital Guardians" is to increase the knowledge, awareness, and competences of project participants regarding the opportunities and threats related to the use of smart devices, digital tools, social media and the Internet. Due to the transition of everyday life to the online world, we are increasingly encountering ubiquitous disinformation. It is becoming increasingly difficult for us to distinguish between what is true and what is false, and the concept of fake news has become commonplace. The pandemic only intensified the phenomenon of transferring our activity to the digital world, making our activities, education or work completely dependent on being part of the digital world.

During the 7-days programme of the mobility participants will be included in different workshops and activities relevant to the main subject matter of the project. The facilitators team will use interesting nonformal learning methods adequate to the project topic and the profile of participants.

Apart from that, the participants will take part in many activities, both theoretical and practical:

- presentations, brainstorming, workshops and discussions,
- **practicing DJI drones flying,**
- orienteering game in Zakopane,
- language animations, ice-breaking games,
- trip to the mountains or sightseeing tour - depending on the weather conditions,
- national evenings and group presentations as a support to international education of the participants

**To learn more about what you can expect during our youth exchange just take a look on the following promotional movies from the projects that our group were implementing in years 2018-2020.**

Dissemination and promotion of the project results is a very important element of the entire project. For several years, our Association has been developing very intensively towards the use of visual materials in the promotion of our activities. The results of our efforts are promotional videos from our projects. A promotional video will be prepared from this project as well. Active involvement of participants in the promotion of the project is the responsibility of each participant, which is a requirement established by the Erasmus+ program guidelines. During our project we will take photos and record short video clips. You may not agree for the usage of your individual pictures, videos and close-ups. **However, we still have the right to use photos and clips in which you are in a group of other participants. A group is understood to be three or more people.**

## PARTICIPANTS PROFILE

Participants should be 18-27 years old, motivated to take part in all stages of the project (preparation, realization, follow up), be able to communicate in English, the gender balance in the group is advisable but not compulsory.

## TRAVEL COST REIMBURSEMENT

Food, accommodation and materials during the youth exchange are fully provided.

The travel costs will be reimbursed as soon as you send us all the necessary documents such as tickets and boarding cards. Eligible means of transport are:

- Plane/Train/bus,
- Traveling by taxi, uber or rented bus is ineligible transportation and can be accepted only(!) if public transport does not operate.

Eligible means of transport considered as "green travel" are:

- Bus,
- Train,
- Car-pooling (if beforehand accepted by the coordinator).

For travel reimbursement purposes participants must provide to the coordinator their tickets, bills and boarding cards in electronic or physical form that includes price, connection description and name of participant (in case of flight tickets). For your plane ticket we will need also your boarding card for every single connection. All the documents need to be delivered in electronic version (PDF) or physical form. Even though you use the mobile app on your phone, download the PDF to send it to us. Because of accounting rules we can NOT accept print screens from your phone.

The E+ Programme and Polish National Agency require participants to use the time and cost-efficient way of transportation. To ensure that obligation we require participants to:

- before purchasing any plain ticket consult it with us. We expect to be informed about the chosen connection including the time, date and price of your flight. The following information should be delivered to us ([grupadzialania@interia.eu](mailto:grupadzialania@interia.eu)) before you purchase your tickets. **Before purchasing flight tickets receive our written confirmation. Otherwise you risk your ticket will not be reimbursed.**
- tickets for flight connections buy directly by the flight operator. We will not accept bills from external operators or travel agencies.

In case participants want to come earlier or depart later from a project venue, they can only arrive 2 days before the youth exchange starting date and depart 2 days after the youth exchange end date, in order to still be eligible for travel cost reimbursement. In that case participants must cover their own expenses on those additional days (accommodation, food etc.) and consult this with the coordinator.

Travel reimbursement can be fully removed to the people who:

- do not take part in the whole length of the youth exchange or skip the workshops (hangover is not a reason for that).
- repeatedly break the basic rules and not react to warnings or commit serious misbehavior,
- do not contribute to the dissemination phase of the project.
